OUR MISSION

Our purpose is to provide sustainable gardening education and to bring nutritious, high quality, naturally grown food to our community.

The Garden is supported by the WellCome OM Center, which has made great efforts to ensure that the Garden is well managed and maintained. The garden team consists of garden managers, community memberships, and volunteers.

COME FOR A TOUR!

- We are open to the public for tours Monday–Friday 9am - 4pm

- For private tours, groups and field trips, please contact us by email info@wellcomeomcenter.com or by phone 352-600-4242

4242 Lake in the Woods Dr.
Spring Hill, FL 34607

Om Grown
COMMUNITY GARDEN

ABOUT OUR GARDEN

The garden is a living, breathing entity that uses dedicated hearts and helping hands to grow and flourish. The Garden offers raised garden bed membership opportunities.

Individual gardeners get a chance to grow some of their own vegetables, herbs, fruits and flowers. Gardeners gain a sense of community through weekly educational workshops and events.

Children get an opportunity to see where their food comes from, learn how things grow, how to care for plants and gain a sense of achievement in growing their own food.
